OUR JOURNEY

GLS Fused Glass is a Greek family business with over 40 years of experience in the field of glass and glass constructions. Starting from stained glass, it evolved into the production of glass products for the HORECA catering industry.

The company specializes in creating quality and durable glass products, designed specifically for the needs of the catering industry. It offers personalized solutions, creating "tailor-made" products adapted to customer requirements.

With a wide variety of designs, colors and sizes, GLS's handmade products offer unique options that highlight every space.

FOUNDER:

Dimitris Gortsilas

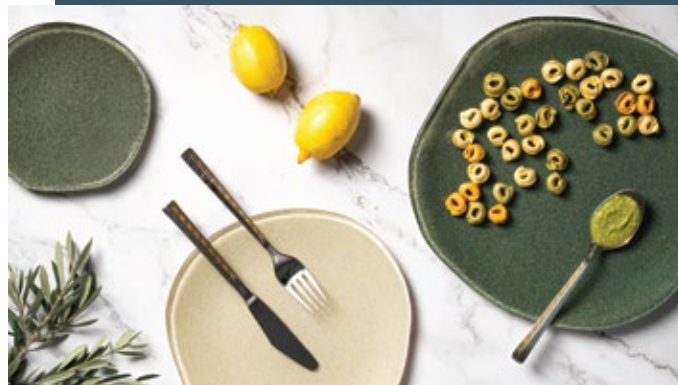

OUR VISION

At GLS Fused Glass, our vision is to create unique, handcrafted glass products that combine beauty and durability.

Our products are ideal for a variety of spaces, fully covering all needs.

- Restaurants and Bars
- Buffets and Reception Areas
- Business Lounges and Corporate Events
- Hotel Services and Suites
- Fine Dining and Catering

RELIEF

cast glass

The glass relief technique creates three-dimensional patterns, such as geometric tribal and abstract designs, adding elegance and a unique aesthetic.

Relief highlights food presentation, enhances the decor of a space and offers chefs the opportunity to add their own unique touch.

BUFFET

Organization

Practicality

Durability

Our buffet products offer an organized and impressive food presentation, ideal for breakfast, lunch or dinner.

It combines a variety of options and practicality, providing guests with a pleasant and complete dining experience that meets the high demands of hospitality.

GLASS BENDO BOX

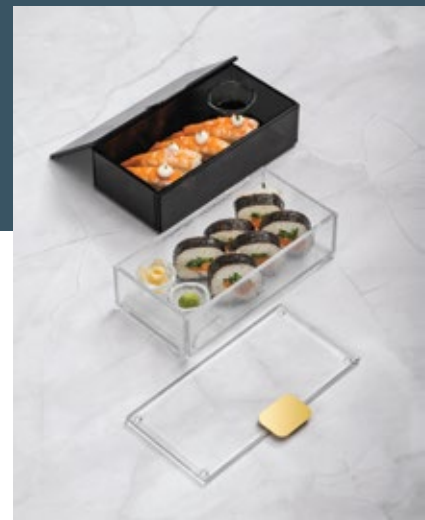

Premium GLASS BENDO BOXes are made of high-quality glass, offering excellent resistance to thermal shock and ideal for hot and cold dishes.

Their construction prevents leaks, while the separate compartments allow for a variety of meals without flavor transfer.

Ideal for those who prefer quality and convenience in food storage and preparation.

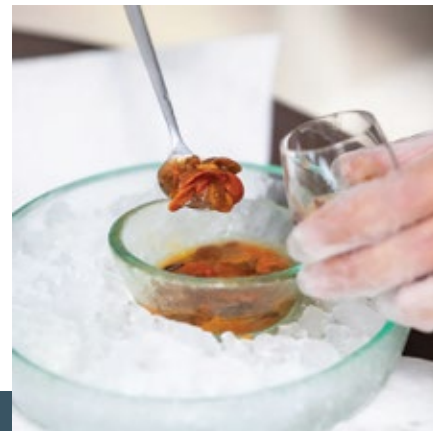

The GLASS BENDO BOX is a flexible meal system, with detachable sections in different sizes, allowing for the creation of personal combinations. Its modular design offers flexibility for different types and quantities of food, ensuring convenience and a customized eating experience. Ideal for snacks, a variety of cuisines or portion control.

Amenity utensils offer practicality and flexibility to any setup. Ideal for complementary use, they offer presentation and serving options for a variety of dishes or side dishes.

With their compact design, they can be perfectly combined with other utensils, adding a modern and functional touch to food presentation.
